DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory LaPointe on September 15, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Claim 32, line 3, delete "ethlycellulose" and insert --ethylcellulose--.

Claim 39, line 1, before "one" insert --any--.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The closest reference of art is Healy et al (US 2005/0004274), which teaches a gel composition comprising at least two components wherein one of the component may be alkyl galactomannan. The reference does not teach component (c) between 0.1 to 20 percent by weight of a salt from a long-chain fatty acid having between 16 and 24 carbon atoms and a fatty acid amidoalkyldialkylamine. Therefore the reference in combination or alone fail to teach the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
